# *LEADERSHIP & CHAIRMAN REPORTS*

**Last month's jobs report is a clear example of why the number-one issue remains jobs and the economy – millions of Americans have been out of work for far too long and wages remain stagnant.**

**Every day we fight for solutions to grow the economy – by advancing an all-of-the-above energy plan; promoting a fairer and simpler tax code; and making it easier to pay for college by taking politics out of student loans.**

**Americans want a strong economy and a more secure future, and our plan lays the groundwork for one with new jobs and expanded opportunities – without expanding government.**
